

Prashant Kumar

UI/UX Designer | Product Designer

prashant.13080.kumar@gmail.com | linkedin.com/in/prashant-kumar | Based in Ghaziabad, UP

PROFESSIONAL SUMMARY

UI/UX Designer focused on creating intuitive, user-centered digital experiences. Skilled in translating ideas and user needs into wireframes, prototypes, and polished interfaces. Experienced in developing UI/UX projects across web and mobile concepts, with a strong interest in product design, interaction design, and visual design.

PROJECTS

Travel Booking App — UI/UX Concept

A modern travel booking app concept designed to make discovering destinations, comparing options, and booking trips simple and enjoyable — with a clean, intuitive interface and strong visual hierarchy.

Verdant — Plant Care Marketplace

Connects home gardeners with local plant sellers. Ran a round of usability testing on the original checkout flow, found a 38% drop-off at shipping selection, and redesigned it around a single-page checkout with inline validation — shipped in six weeks.

Nike Webstore — Reimagined

A next-generation take on the Nike webstore, blending high-performance design with immersive interaction.

Cadence — Health Dashboard

A clinician-facing dashboard for remote patient monitoring. Designed a tiered alert system and a glanceable card layout clinicians could scan in under ten seconds per patient.

ENERGO — Energy Drink Packaging & Branding

Packaging designed to feel like a high-performance digital interface. Inspired by cyberpunk visuals and gaming dashboards, using glowing circular graphics, bold typography, and data-inspired UI elements to communicate speed and power.

Northline — Banking App Redesign

A desktop banking dashboard extending the Northline mobile experience into a financial command center — clear navigation, account insights, and spending analytics with a consistent visual identity across platforms.

Spotify — UI Concept Showcase

An exploratory UI concept design showcase built around Spotify's product and visual language.

EazyDiner — App Redesign, UI/UX Case Study

A redesign of the EazyDiner mobile app focused on a seamless, premium dining experience: a refined home screen with personalized recommendations, a simplified restaurant discovery flow, and a streamlined table-booking process.

Modelle — Fashion Brand Identity

A modern, elegant fashion brand identity built around a clean, timeless visual language. Refined serif typography paired with a distinctive monogram, set against neutral luxury tones.

EDUCATION

	Secondary Kendriya Vidhyalaya No. 1, Faridabad
2020	Senior Secondary SKD, Hathras
2020 — 2024	B.E. — CSE Chandigarh University
